GCCCU Cross Registration

The Cross Registration program of the Greater Cincinnati Consortium of College and Universities (GCCCU) is designed to provide educational access to all fifteen member institutions for students at any member school. Through this program, students can take courses not available on their home campus by completing the Cross Registration process. Though each institution may have its own particular procedures, the basic registration process requires a standard form used at all campuses.

University of Cincinnati students may enrich their curriculum by taking courses of their choice offered at 14 area colleges and universities. Full-time or half-time matriculated University of Cincinnati students may take a maximum of two courses per quarter from the other Consortium institutions with the approval of the dean of their college. Consortium course approval forms are available in all college offices and should be taken to the fifth floor of the University Pavilion upon completion. Any questions regarding the Consortium should be directed to the Registration Office, 513-556-6515.
